

Summer Time Activity

Class VI

Session-2025-26

Summer is here, and it's time to have fun, learn new things, and make memories. Let's fill it with adventure, discovery, and unforgettable experiences!

This summer, we are giving you an opportunity to explore the world around you, both near and far. It's time to enjoy and create a bond with family, friends and relatives.

Sustainable Development Goal (SDG) is a shared blueprint for peace and prosperity for people and the planet, now and into the future.

Sustainable Development Goal (SDG) 7, Affordable and Clean Energy, aims to ensure access to affordable, reliable, sustainable, and modern energy for all, by 2030. This includes universal access to electricity and clean cooking solutions, increased renewable energy use, and improved energy efficiency. The goal recognizes the importance of energy for economic development, poverty reduction, and addressing climate change.

Let us research, analyse, comprehend and suggest eco-friendly solutions for the raised concerns. Compile your findings in the form of a portfolio.

Theme: “Energy for the future”

1. You are an energy planner for the Andaman and Nicobar Islands. Your goal is to help more people to use clean energy. Design a poster encouraging the people of the islands to use clean and renewable energy. Include a slogan like “Clean Energy, Bright Future”.
2. i) The Andaman and Nicobar islands are making significant strides in adopting renewable energy to reduce dependence on diesel and promote sustainability. Make a collage on A3 size sheet highlighting the key renewable energy initiatives and its impact on islands.
ii) Draw two maps of the Andaman and Nicobar islands and Lakshadweep island, mark 2–3 places where solar or wind energy stations could be set up. Use symbols and labels.
3. Collect the data and represent it in the form of a pie chart showing how much money a family may save by switching from traditional to solar energy over one year.
4. Clean Energy - Powering a Bright future. Write a paragraph on the topic in 120 - 150 words.
Create a leaflet on A4 size sheet depicting diverse clean energy solutions like solar, wind, hydro power, geothermal and electric mobility to build a sustainable future.

- 5.i) “स्वच्छ (नवीकरणीय) ऊर्जा के महत्व के प्रति सभी को जागरूक करना आवश्यक है, ताकि यह समझाया जा सके कि गैर-परंपरागत. ऊर्जा स्रोत पर्यावरण और भविष्य दोनों के लिए किस प्रकार लाभकारी हैं। सतत विकास को सुनिश्चित करने के लिए ऊर्जा की भूमिका को अधिक प्रभावी और टिकाऊ बनाना आज की आवश्यकता है।” स्वच्छ ऊर्जा के लाभ और अवश्यता को बढ़ावा देते हुए - A3-size sheet पर “स्वच्छ ऊर्जा का महत्व” विषय पर एक पोस्टर बनाइए।
- ii) स्वच्छ ऊर्जा का उपयोग बढ़ाने के लिए सरकार और समाज ने अनेक कदम उठाए हैं। जिससे से कुछ निम्न है-सौभाग्य योजना, उज्ज्वला योजना और सौर ऊर्जा योजना।
- सौभाग्य योजना, उज्ज्वला योजना और सौर ऊर्जा योजनाओं में से किसी एक विषय पर आकर्षक रंगीन विज्ञापन A3-size sheet पर तैयार कीजिए।

6. Make a tri-fold brochure that spreads awareness about clean energy and how individuals can help achieve affordable and sustainable energy.

Your brochure should include:

A visual representation of clean or renewable energy (e.g., solar panels, wind turbines, eco-homes, etc.) with an attractive title/ heading in French. Be creative, informative, and eco-friendly in your design!

7. शिक्षित राष्ट्रं समृद्ध राष्ट्रं

गुणवत्तापूर्ण शिक्षा विद्यार्थी का चहुंमुखी विकास

गुणवत्तापूर्ण शिक्षा छात्रस्य सर्वतोमुखीविकासं जनयति: शिक्षितं राष्ट्रमेव समृद्ध राष्ट्रं भवितुम् अर्हति। केवलं शिक्षितः छात्रः एव देशे परिवर्तनं आनयति, भवेत् सः परिवर्तनः प्रकृत्या वा औद्योगिकविकासेन वा सम्बद्धः।

प्रदत्तबिन्दुमाध्यमेन प्रकृतिसंरक्षणे योगदानं कुर्वन्तु - *अण्डमाननिकोबारस्य प्राकृतिकसौन्दर्य

जलवायुपरिवर्तनस्य कारणं

भूजलस्य न्यूनता

वनस्पतिः जीवजन्तुः च

*समुद्रतटाः तेषां सौन्दर्यं च।

सम्पूर्णं कार्यं लिखित विज्ञापनयोः रूपेण कुरुत यत् अन्येभ्यः दर्शयितुं शक्यते येन यत् समस्या उत्पद्यते तत् व्याख्यातुं शक्यते।
