

# QUEEN MARY'S SCHOOL, NORTHEND

Model Town-III, Delhi-110009

## HIGHLIGHTS APRIL 2021

**Earth Day**, celebrated on 22nd April every year focuses on promoting a healthy, sustainable habitat for people and wildlife alike. Ironically, this year's Earth Day is taking place during one of the most widespread and deadly pandemics the world has seen for generations. The students of Queen Mary's School, Northend actively participated in the Earth Week Celebrations.

An online special assembly was conducted wherein the students rightly explained and highlighted the importance of this year's theme for Earth Day '**Restore Our Earth**' through a video presentation-Earth in Future.

*Video presentation showcasing the "Earth in Future"*

The students also presented a dance and a song showcasing the beauty of nature and also focussing on the need of a clean and healthy environment.

*Dance performance- "This is our World"*

*Song- It's a beautiful day*

Posters & Bookmarks highlighting concern for Mother Earth

DO WE REALLY LOVE NATURE? - RIA RACHEL BISWAS

We all love nature, we are all surrounded by nature. Really?? Do we love nature, are we really surrounded by nature? I don't think so! If we really loved nature then would we be so anxious to tear it down for our own selfish needs. We love to hear what we need to do, but when it comes to action we shy away. I am not going to give a lecture on what we need to do to protect nature, we have all been hearing it since class 2. If it hasn't got to us yet, then it probably never will! Well guess what, nature has its own way of telling enough is enough! What do you think is the reason behind unseasonal floods, frequent earthquakes, landslides, tsunamis, etc? They are all signs of the neglect shown by us towards nature and the ecosystem at large over the years. Maybe we still have time to show some respect to mother nature and maybe it might be forgiving enough to let us live in peace!

Article Expressing thoughts on Importance of protecting the Environment.

The students made signages for conserving Energy and encouraged everyone to change their habits and be eco-friendly.

GROUP DISCUSSION  
Topic:  
EARTH DAY AWARENESS

THERE IS ONLY ONE EARTH, NOT ONE PLANET FOR NATURE AND ANOTHER FOR HUMANS. HOWEVER, IT SEEMS THAT OUR PLANET IS BEING TREATED AS A DISTANT BACKDROP IN MOST PEOPLE'S LIVES. YET, EVERYTHING WE USE AND EAT HAS EITHER BEEN MINED OR GROWN AND OVER USED.

Students spreading awareness on Earth day and discussing ways to Restore our Planet through online group discussion.

Dance is an art form which helps in expressing the emotions of life and relaxes the mind, body and soul. **International Dance Day** is celebrated every year on April 29 throughout the world to pay tribute to this distinctive form of performing arts. This is a day not only to entertain, but also educate students about the various art forms, making them more appreciative of the world of dance.

Our School celebrated 'International Dance Day' virtually with great zeal and fervour. The young dancers presented different dance styles ranging from classical, western dance like fusion and hip hop. The little dancers dressed in colourful costumes, twirled around with their thrilling performance and showcased their dancing talent. The foot tapping moves and mesmerising smiles proved that no boundaries can confine the dancing feet.

INDIA - BHARATNATYAM
