

Queen Mary's School, Northend

Model Town-III, Delhi-110009

Highlights

September '2021

28th August to 29th September 2021

Reading is an exercise that enlightens the mind by widening the doors of knowledge. Through reading students can acquire knowledge; improve memory and imagination; develop their language and communication skills and do better in critical thinking.

At Queen Mary's School, Northend the aim of '*Book Week celebration*' is to **inspire the young minds, rekindle the reading interests and promote the reading culture**. A plethora of interesting activities were organized during the Book Week.

Book Week provided a platform to the students to exhibit their talents through various competitions like **Reading Challenge, Designing Book marks, Book Review Presentation, Storytelling, Read Aloud** and many more. Children were also encouraged to choose their favourite book from Scholastic Virtual Book Fair.

CLEANLINESS DRIVE FOR SWACHH BHARAT

SWACHHATA PAKHWADA (1ST TO 15TH SEPTEMBER, 2021)

To spread awareness about the importance of personal hygiene and clean surroundings, various activities were organized as part of Swachhata Pakhwada Mission under CBSE.

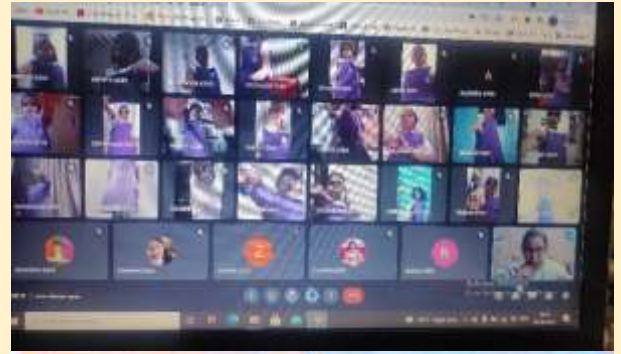

Following activities were organized:-

1. Swachhata Shapath Day
2. Hand Wash Day
3. Personal Hygiene Day

10-9-21: *The International Day of Clean Air for Blue Skies* is celebrated across the world every year on 7th September. This day is facilitated by the United Nations Environment Programme (UNEP), which aims to create awareness about the significance of air quality, which is essential for all living things on Earth. **Theme given by the UN for year 2021 is "Healthy Air, Healthy Planet"**. In this regard various activities like Drawing, Slogan writing and Essay writing were organized. Children enthusiastically participated in them.

RASHTRIYA POSHAN MAAH (1ST to 30th September, 2021)

The importance of food is obvious and essential. Healthy food provides us the nutrients and energy to develop and grow, be active and healthy, to move, play, work, think and learn. Foods are directly related to our body and our mental and social health. But a large population including children are highly vulnerable to hunger and malnutrition. To fight with hunger and malnutrition, Government of India's flagship programme **Rashtriya Poshan Maah was celebrated in India from 1st to 30th September'21**. The objective of **Poshan Abhiyaan** is to encourage children to share or offer a nutritious meal to the underprivileged sections of the society, living in their neighbourhood. This will not only help the children to understand the value of nutritional food, but also imbibe a sense of social responsibility, inclusion and volunteerism.

Teachers Workshop

23-9-21: **'Off to Number and Numeracy Land on My Learning Train!'** - The webinar organized by Oxford University Press India, primarily focused on how to make classroom more interesting and lively using Mathematics. For this, the guest speaker Ms. Sonia Relia suggested many activities as well as resources which can be actively used in the classrooms so that the child can connect with the concept to a greater level especially, for class 1& 2. She suggested to use stories for explaining the Mathematical topics like shapes, addition and subtraction. She also suggested to use real life objects which the child can see in the vicinity to relate to Mathematics. To sum up, the webinar encouraged the attendees to find out constructive ways to make Mathematics realistic, relatable and enjoyable for the children.

*We have a hunger of the mind which asks for
knowledge of all around us, and the more we gain,
the more is our desire; the more we see, the more we
are capable of seeing.*

-Maria Mitchell
