EVENTS

'EARTH DAY' 22nd April 2017

22/4/17: With the aim of transforming mother Earth into 'clean and green planet' Earth Day was celebrated in school with great enthusiasm and zeal. The students took active part in various activities like planting Mango, Tomato, Ridge gourd seeds, Lady finger and Chilly saplings. Children were happy to see a seemingly lifeless thing (seed) grow into a living plant. Students of class IV & V visited the school garden and practically experienced the process of Composting. The organic matter (Vegetable and fruit peels, dried leaves etc.) was collected in the class bins and then added in the composter. The process of making compost was explained to all by the teachers. It was a wonderful experience for children.

Award Ceremony 2016 - 17

25/4/17 :Award Ceremony 2016-17 for classes I to V was organised in school. Children received the awards in various categories for their hardwork and diligence. School Principal Ms. Anupma Singh congratulated the children on their success and motivated them to continue their endeavour.
